

USE CENTRALAB PRINTED CIRCUITS

HOW TO USE LISTINGS

On the part to be replaced, a marking will be found corresponding to the column headed "Identification Printed on Part." The proper replacement is the P. E. C. plate listed in the last column headed "CRL Cat. No." Every "PC" catalog number so listed is a stock item, obtainable from Centralab distributors.

The manufacturer's part number, which is also given, is at times different from the marking, and may be the reference number listed in connection with circuit diagrams or in Sams' Photofacts or in Rider Manuals.

YOU SAVE TIME, MONEY AND MAINTAIN CIRCUIT STABILITY BY REPLACING PRINTED CIRCUIT PLATES ONLY WITH CENTRALAB EXACT DUPLICATES.

*INSTALLATION NOTE — The replacement part and the original manufacturer's unit are identical except for lead numbering. For installation purposes disregard lead numbers on the replacement part and install it in an identical manner to the original. The old and new numbers correspond as follows:

ORIGINAL PART 3—2—1—4
REPLACEMENT PART: 1—2—3—4

†COLOR CODED PARTS — Some of the original manufacturer's part may carry a color code in place of a part number. Replacement of these parts is as follows:
